Product Description

Peerless oil less range of air compressors are very reliable, cost-efficient and clean. Copper wound electric motors with 6AMP draw producing an outstanding air flow of free air delivery along with its super quiet motor at only 52dBa +/-2. The P013 Tubie Air Compressor produces 175LPM of free air delivery, this will run your framing guns through to your coil guns due to it's short recovery.

We have also fitted an electronic auto drain to the air receiver, as we all know its hard to

remember to drain your tank, so we fitted this little feature.

Being an Oil Less Air Compressor it doesn't matter about parking level too!
